

Rexnord® Addax® Couplings

Rexnord® Addax® Composite Cooling Tower Coupling Premier Choice! Ultimate Value!

Choose a Rexnord® Addax® Composite Coupling as YOUR cooling tower coupling if you are currently using a steel coupling or an alternative composite coupling.

The Rexnord® Addax® Composite Cooling Tower Coupling delivers “Best-in-Class Value” for the cooling tower industry by providing excellent **corrosion resistance, high misalignment capacity, excellent fatigue resistance, low weight, and ease of installation.**

Service and Support

Rexnord is the largest coupling manufacturer in the world, and has the most comprehensive global sales and service team in the industry. Rexnord associates are experts in cooling tower coupling applications and are available to help you 24/7 if an emergency arises.

Lead Time

Virtually every cooling tower coupling installation has unique coupling dimensions, therefore all Addax® coupling assemblies are “made to order” per customer supplied dimensions. Even though each Addax® coupling is made to your specifications,

Rexnord provides the absolute **BEST** standard lead time in the cooling tower industry - **2 weeks after receipt of order.** As an added benefit, Rexnord offers an exclusive emergency expediting option that includes **Same Day, 3-Day and 5-Day Shipments.**

Quality

With more than 50,000 Addax® composite couplings installed around the world over the last 20 years, Rexnord has the most experience of any composite cooling tower coupling manufacturer. Our associates are continually improving our products by applying Lean Manufacturing and Six Sigma methodology to add increased value to our products.

Price

The Rexnord® Addax® Composite Cooling Tower Coupling is the most inexpensive product of its kind, while providing the most comprehensive list of product features and benefits. Combine the price and product features with Rexnord’s dedicated associates who provide an unprecedented level of service and support, and you will agree that the Rexnord® Addax® Coupling delivers the best value!

- Addax® was the first advanced composite cooling tower coupling and was introduced to the industry in 1987.
- Addax® composite coupling systems are installed in cooling towers on every continent around the world.
- Rexnord is known over the world as the leader in design, manufacture and application of advanced composite systems for mechanical power transmission. The Rexnord advanced composite experts have designed couplings not only for cooling towers but also for fans, pumps, and marine propulsion.

Why choose a Rexnord® Addax Composite Cooling Tower Coupling over the alternatives?

Features, Functions, Benefits of Addax® Cooling Tower Coupling		
Features	Functions	Benefits
<i>Low Weight</i>	Reduced mass Reduce bearing loads Reduce inertia	Simplified installation Increase bearing life Reduce vibration
<i>Corrosion Resistant</i>	Resist chemical attack	Extend service life Reduce maintenance Increase safety Low cost of ownership
<i>Low Coefficient of Thermal Expansion</i>	Dimensional stability	Reduce vibration Reduce stresses Increase operating range
<i>Continuous Fiber Composite Spacer Flange</i>	Infinite fatigue life	Low cost of ownership
<i>Unitized Flex Element</i>	Eliminate fretting Infinite fatigue life Simplified installation	Low cost of ownership Longer service life Reduced maintenance Increased safety
<i>High Misalignment Capacity</i>	Reduced equipment stress Increase life	Easier installation Reduced ownership costs
<i>High Strength to Weight Ratio</i>	Increase stiffness Higher critical speed	Eliminate harmonics Eliminate steady bearings

WORLDWIDE CUSTOMER SERVICE
